

CONFERENCE OF MIZRACHI SOCIETIES OF ENGLAND.

A conference of all Mizrahi Societies of the United Kingdom was recently held in London. Rabbi Dr. Schoenfeld, the Vice President, welcomed Dr. Henry Keller of the Zionist Medical Unit, who had recently returned from Palestine, and Mr. H. Farbstein, the noted Mizrahi leader of Warsaw, who is a member of the Polish diet. Dr. Keller gave a detailed report of the educational situation in Palestine as affecting the Mizrahi. Speaking as one who has made a thorough examination of almost every school in Palestine, he stated that the

only schools which provide an adequate teaching of the Jewish faith, together with a sound system of imparting secular knowledge, are those under the control of the "Superintending Council for Orthodox Schools," which is guided by the Mizrahi. Dr. Keller's report having been concluded, the delegates discussed the situation. It was resolved to wire Dr. Weizman and Mr. Ussischkin, promising support to their political and economic endeavors for Palestine, and drawing their attention to the urgency for an immediate solution of the educational question in Palestine on

the lines decided at the last Zionist Conference.

The election of delegates to the International Mizrahi Conference followed. Four delegates were elected by the Conference, Rabbis J. L. As-trinsky, A. R. Charney, Z. Dimson and Mr. M. Schiff. In addition, two delegates were allotted to the Manchester Mizrahi, and one delegate to the Young People's Mizrahi Organization.

The conference also adopted a number of resolutions, aiming at the furtherance of the Mizrahi work in the United Kingdom.

ADDITIONAL FORT WORTH NEWS

M. REINSTEIN DIES.

Mr. M. Reinstein, of Tulsa, Okla., 32 years of age, died suddenly in his room at a local hotel.

He came to Fort Worth on December 21. It is said that he planned to complete a business transaction here.

The body is being held by the Fort Worth Undertaking Company pending the arrival of Mrs. Reinstein, Friday morning.

WE WILL DRILL 20 WELLS Dividends Guaranteed

250 Proven Acres and Our Own Drilling Equipment

WE ARE REALLY UNDER WAY

We own our own tools—we now have four strings in the Ranger Field—two in the Desdemona district on company leases—one on the old postoffice tract, O'Rear Well No. 1, 8-inch casing set at 1,950 feet and again drilling, and the other ready to go on the McQuillan No. 1 where the rig is now completed and waiting for gas—two strings on contract work in Stephens County, Texas,—one for the Prairie Oil & Gas Company on Graves farm Well No. 1, now cementing casing at 1,810 feet, and the other for the D. & R. Syndicate of Denver on Stanford farm, Well No. 2, setting casing at 1,057 feet.

We are now closing contract for another 20-acre lease in the J. in proven fields of Texas, Oklahoma and Louisiana, and will acquire additional holdings, equipment and material as is necessary to carry out the plans of the company.

We are now closing contract for another 20-acre lease in the J. L. Schoonover Survey, northeast of Desdemona, surrounded by big production.

We have just bought 10,013 acres in oil and gas leases—a gusher on this tract would mean a fortune for each \$100 stockholder.

250,000 SHARES

OUR POLICY

To operate where the experience of the officers can be put to the best advantage for the company.

To salvage valuable oil properties that inexperienced operators have floundered on the rocks, but which the officers of the Company know to be good.

To drill for production in proven fields, placing half of the tools on Company leases and half on contract work. The profit on the contract work will pay for all the costs of drilling the Company's own wells and leave a profit besides. Mr. Dale inaugurated this plan in the West Texas oil fields, and he made a money-maker of it in the Texas & Oklahoma D. & D. Association.

To handle its production, in storage and in pipe lines.

To give a written guarantee to pay 50 per cent of the production from the first five wells in dividends until each holder of the first 250,000 shares has been paid \$1.00 a share in dividends; and thereafter to pay as large dividends as is consistently safe under the policy of the Company.

To refine its own oil, making all the profit from producer to the ultimate consumers selling finished products through its own filling stations and dealers.

To drill twenty wildcat wells on large acreage at no cost to the Company. These plans are well under way.

To have sufficient capital authorized to pay dividends from the production and earnings, taking care of the expanding, growing business from sales of stock.

OFFERED AT PAR \$1.00 SHARE

Our 100 Per Cent Guarantee

SPECIAL DIVIDEND.

We hereby agree to pay in dividends 50 per cent of the Company's production from the first five company's wells drilled until each purchaser of the initial block of 250,000 shares has been paid in dividend of \$1.00 a share; and thereafter to pay as large dividends as is consistently safe under the policy of the Company.
